

## Connecting to our Online Course & Community

After subscribing to our online course, you'll need to connect to our online platform via Discord, the website/app we use to deliver all of our content, and support for our Gold members.

Follow these quick steps to get connected (we recommend using a laptop/desktop browser initially):

1. Log into Discord, or create a free account here: [Discord Registration](#)
2. Keep Discord open, then click this link: [Subscription Dashboard](#)
3. Sign into your dashboard and select the button **Join the Waters & Acland Discord**
4. Discord will prompt you to **Authorise** our subscription service to link with your Discord account (The program we use to do this is called 'Toby')  
Please Click **Authorise**, and you'll be taken to our Welcome page in Discord
5. Watch the [Tour of Discord](#) Video to get acquainted with the app

Discord will open to our Welcome page. On the left-hand side (or by swiping left on your phone), you'll see a list of folders containing all our content, forums, chatrooms, and more. Once connected, you won't need to repeat these steps—just open the Discord app, and our server and content will be ready for you!

To keep subscription prices affordable, we are unable to provide individual technical support for sign-ups. If you are unable to connect, we are happy to offer a full refund.
